Subject: My current draft of TO 46 Mod (with Jake's edits) - let me know when you'd like to chat
Attachments: TO 46 Assumable Waters SOW Mod RC 3-12-18.doc

Hi Kathy –

Jake had only a very few minor edits, except for one re required expertise of the facilitator under Task A.d (added “in-depth knowledge of CWA 404(g)” and deleted “ location in Washington DC...”) I can tell you what they were when we meet

I did include some general sense of timing and # of meetings in new Task F, but we should include the specifics you mentioned the other day.

Ex. 5 Deliberative Process (DP)

I'll still need to do a new IGCE.

Subject: My current draft of TO 46 Mod (w/o Jake's edits)

Kathy - Here's what I have so far. I had done this before getting Jake's edits, so will need to incorporate those.

Note that this contract goes until June 14, so we've indicated that too.

Take a look and we can chat whenever there's a good time for you.

(We were supposed to be working today on the materials for the meeting. I offered to Mike to come in if they are still doing that, but depends on the metro and weather. Don't want to be on the high metro ramps!)

Thanks, maybe we can touch base for a few minutes and I can take over from wherever you leave off. Thanks, Kathy

H Kathy-

Jake and I discussed adding more specifics on # meetings we expect so the contractor can price it (similar to the

Ex. 5 Deliberative Process (DP)

I wasn't clear how to use the dates in your excel spreadsheet, but I added language on general timeframes from the Tiering form.

Also, we do need a new IGCE.

I'll do what I can on this today. May not be able to do much next week while the meetings are going on.

Hi Ruth,

Here is the last IGCE for this TO 46 which you can modify to add the new Task F.

Jake

Kathy - no need to do anything. I'm just copying you so that you have this file.

Ruth,

Your additions look great to this. I do have a question about inserting deliverables and have attached an excel spreadsheet with some of the timelines associated with a rule. Sorry, I don't have time to cross reference today, I may tomorrow night while on travel. Ruth, If you can work with Mike L. to get this into the system that would be great.

I am wondering if we can slip in support on documents to provide clarity in a rule like an economic analysis. We may not be able to, but Jake if you think we could use a broad term that would allow SRA to do this (or Pat) that would be great. We need all the help we can get and we need to use the money!
